Posters serve as constant cues that reinforce desired behaviors, especially in environments like classrooms and homes where children spend significant time.

Aligning with Child Development Principles

Research indicates that children in early and middle childhood are particularly receptive to visual learning. Posters capitalize on this by offering colorful, memorable images and concise messages that resonate with their developmental stage. The seven habits model, originally popularized by Stephen Covey, is adapted for children to focus on personal growth and social skills in an accessible manner.

Encouraging Self-Regulation and Responsibility

Having tangible reminders helps children develop self-regulation skills.
